Report on

Regenerative Agriculture Technology Training Program

18-03-2021 – 20-03-2021

Sponsored by

- 1. Mahindra and Mahindra Pride Classroom**
- 2. Naandi Foundation**

The Regenerative Agriculture Technology Training Program was organized in Agriculture faculty in association with Mahindra and Mahindra Pride Classroom and Naandi Foundation. Dr. Ashok Kumar Singh, Department of Agricultural Chemistry and Soil Science coordinated the training program. Students of B.Sc. Ag final year and M.Sc. Ag. participated in the program. Training was given by Shri Vindhyanchal Giri. The main focus of the training program was manufacturing of various types of pesticides, composts, liquid fertilizers, organic pesticides for seed treatment and other useful products for agricultural purposes. The students learned the layout planning for regenerative farming , natural farming and use of direct natural resources.

The workshop was organized by Dr. Ashok Kumar Singh.

Prof. Ashok Kumar Singh

Head

Department of Agricultural Chemistry and Soil Science
